Forecast for Thursday 18 Feb 2021

Weather: An overcast start with periods of occasionally heavy snow and rain. Snow level increasing around 1000m by early morning, before lowering 600m from early afternoon, as the snow and rain breaks up to isolated showers, these focused across western ranges through the rest of Thursday.

Chance of cloud free mountain/hill tops above 800m: 20% increasing 90% from around mid-afternoon.

Visibility: Generally moderate or poor in early periods of snow and rain, also in later showers, less in cloud with bases extensive from 500-750m at first, then briefly in and around the showers.
